

Student Course Registration System Flow

Proposed Features for Student Registration System

- List of applicants who want to take a specific course
- Posting courses on monitors, desktop computers or via online webpages
- Selection of Qualified Scholars (Name, Contact Details and Slot number)
- Validation for Slots
- Email Notifications (Control/Reference Number upon selection of qualified applicants, Registration Form Link for Online Fill-up)
- Email Notifications for schedules (eg. Exam, Orientation or Assessment). Schedule dates can be set automatically or manually.
